

Prosci® Change Management Workshop for Project Managers: Delivering Project Results

"Organizations do not change, people do"

Learn to effectively manage change

INTEGRATION OF CHANGE MANAGEMENT AND PROJECT MANAGEMENT IS A KEY CONTRIBUTOR TO OVERALL PROJECT SUCCESS

The Prosci Change Management workshop for project managers enables participants to integrate change management into active projects in order to deliver enhanced results.

Project managers and change managers often speak a different language and have a lack of mutual understanding and buy-in that ultimately prevents effective integration.

This half-day workshop on delivering project results helps project leaders to understand the importance of change management in meeting their project's objectives. This results-oriented workshop uses your active projects to give participants a common language for change using familiar language: intent, objectives, scope, workstreams, milestones, deliverables and timelines.

Course Objectives

By the end of the course, participants will:

- ◆ Gain an appreciation for the impact of change management on organisational results
- ◆ Connect employee adoption to their own project's results and outcomes and identify impacted employee groups
- ◆ Understand how change management drives better adoption and usage
- ◆ Create a common framework for engaging with change management practitioners
- ◆ Map change management work to their project's life cycle using the Prosci Change Management Blueprint
- ◆ Learn to identify when their project needs change management

Course Highlights

- Integration of change management and project management
- Application of Prosci methodology and tools using your active projects
- Review of best practices
- Includes books, tools and templates
- Can be held in English, Danish or Swedish

About proacteur

Founded in 2006, proacteur is a consulting firm that provides evidence-based and best practice consulting services within Change Management. We follow an internationally established and proven change management method that is holistic and takes the complexity of the change into account. This ensures that the change effort is focused and that the change is robust and lasting.

This is how we do it:

1. Together, we make sure we understand the issue
2. We develop people to fulfil their role in the change
3. We manage the change together with you

We base all decisions on data and strategic indicators to make sure not to lose sight of the targets at hand – whether it is quality assurance in our clients' deliverables, improved production efficiency or process optimisation.
